

Vignesh R

Frontend Engineer

✉ vigneshr0819@gmail.com ☎ 7604999984 💼 linkedin/vignesh 🔄 github/vignesh 🔗 portfolio

Professional summary

Frontend Engineer with 2+ years of experience building scalable, responsive, and high-performance web applications using **React.js**, **Next.js**, **TypeScript**, and **JavaScript**. Experienced in developing **reusable component architectures**, optimizing application performance, and delivering seamless user experiences across web platforms. Skilled in **TanStack React Query** for server-state management, **REST API integration**, and implementing modern frontend solutions for AI-powered, HRMS, and enterprise applications. Strong understanding of **performance optimization**, **responsive design**, and collaborative Agile development, with a focus on building production-ready and maintainable applications.

Professional Experience

Software Developer - Kryptos Info System Pvt.Ltd 🌐 03/2024 – Present | Chennai

- Developed **scalable web applications** using **React.js** and **Next.js** with **reusable component architecture**
- Implemented **TanStack React Query** for **server state management**, enabling **efficient data fetching**, **caching**, and **automatic background updates**
- Improved **application performance** using **lazy loading**, **memoization**, and **optimized API handling**
- Built an **AI-enabled application** integrating **external APIs** for **real-time user interaction**
- Designed **modular frontend architecture** ensuring **scalability** and **maintainability**
- Integrated **REST APIs** efficiently using **Axios** and improved **data-fetching strategies**
- Collaborated with **cross-functional teams** to deliver **production-ready features**
- Contributed to **HRMS platform** used by multiple clients, improving **workflow efficiency**

Skills

React.js, Next.js (SSR, ISR, Routing), ReactNative, Javascript, Typescript, Vite, HTML5, CSS, Material UI, Ant Design, i18n, GitHub, TanStack, Chart.js, Recharts, Axios, Context API, Redux Toolkit (Basic), Node.js, Express.js, Jest, REST APIs, JWT Authentication, Firebase, Firebase Authentication, Firebase Cloud Messaging (FCM), Azure DevOps, CI/CD Pipelines, Build & Release Pipelines

Projects

Qatar 🌐

- Built scalable and reusable React components to maintain a consistent and modular UI architecture.
- Implemented **TanStack React Query** for efficient API caching and background data synchronization.
- Developed **comments functionality**, map integrations, and AI-based search features to improve user interaction.
- Optimized **page load performance** using Next.js features such as dynamic imports, image optimization, and component-level code splitting.
- Implemented **banner analytics tracking** and enhanced UI responsiveness across devices to support better engagement insights.

Impact: Delivered a high-performance platform with faster page loads, improved user engagement, and a smooth cross-device experience.

HRMS – Human Resource Management System

- Developed employee, payroll, and reporting modules for a multi-client HRMS platform.
- Managed server state using **TanStack React Query** to optimize data fetching, caching, and application performance.
- Integrated **Firestore Analytics** and **Firestore Cloud Messaging (FCM)** for user behavior tracking and real-time notifications.
- Built interactive dashboards and reports using **Chart.js**, optimizing large dataset rendering and data visualization performance.
- Implemented **internationalization (i18n)** support and responsive UI components to enhance accessibility and user experience across regions.

Impact: Improved workflow efficiency, real-time communication, and analytics tracking

AFS - AI Based

- Built **AI-powered user interfaces** for real-time conversational Q&A interactions.
- Managed server state using **TanStack React Query** to optimize data fetching, caching, and API performance.
- Developed an **admin analytics dashboard** to track active users, token consumption, and prompt usage metrics.
- Optimized **application performance** and API integration workflows to improve responsiveness and user experience.
- Collaborated on application deployments using **Azure DevOps CI/CD pipelines**, supporting build, release, and deployment activities.

Impact: Enhanced user engagement, streamlined deployment workflows, and enabled data-driven decision-making through real-time analytics and performance insights.

Awards

Pinnacle Client Performance, Kryptos infosys 01/01/2026
Recognized for **outstanding contribution to Qatar Project** and **client delivery excellence**.

Pinnacle Performance, Kryptos infosys 01/10/2024
Awarded **Pinnacle Performance** for outstanding contribution to the **AFS AI-based application**, delivering high-quality frontend features and ensuring a smooth user experience.

Rising Star, Kryptos infosys 01/04/2024
Awarded **Rising Star** by **Kryptos Infosys** for outstanding performance, quick learning, and significant contributions to frontend development projects using **React.js** and **Next.js**.

Education

Bachelor's degree, BCA 2020 – 2023 | Tirupattur
Thiruvalluvar University, Vellore
